

FCC:

I am upset at the attempt by the National Association of Broadcasters to disrupt or restrict any fair competition by satellite radio. Access to information or entertainment should not be determined by a select group to protect their interests. Satellite radio should be free to operate and service its customers just as cable TV became an alternative to the old "network establishment". I urge you to deny the NAB's request to monopolize radio and reject Petition 04-160. It is the right thing to do!

This is America- Land of Free Enterprise- let the radio audience market decide what it wants - NOT the NAB!

Thank you,

Paul Sanders
